

GREAT EVENTS IMPENDING

On Woevre Front, Where the Americans Are Fighting

CLOSING IN ON DUN-SUR-MEUSE

Left Wing of Americans Is Only Five Miles from Buzancy

Paris, Oct. 12.—The Americans are closing in on Dun-sur-Meuse, while their left wing is within five miles of Buzancy, says Marcel Hutin in the Echo de Paris. Continuing, he says important events which will change the entire face of things may be expected in this part of the Woevre front.

Orders found on prisoners, says M. Hutin, show the enemy was instructed to resist on the Sappe river front until the 13th at least, in order to save all the material possible and to enable the adjacent armies to conduct an orderly retreat. General Gouraud's attack upset this plan. Although the Germans had twenty-five divisions in the Champagne sector, twelve of which were fresh, the fear of being rushed caused them to decline battle. The crown prince has moved his headquarters from Mezières in hot haste.

SHOT AT SUBMARINE.
Brazilian Steamer People Think They Sank It.

An Atlantic Port, Oct. 12.—Officers of a Brazilian steamship arriving here yesterday told of an encounter with a German submarine Thursday, 70 miles off the north Atlantic coast. The steamer fired on the submarine and members of the gun crew believed it was sunk, although no wreckage was seen.

The submarine was sighted as it was rising to the surface and the steamer immediately opened fire. A shot from the stern gun missed the target, but the steamer swung around and made a fair hit with the bow gun, according to the officers who reported the occurrence to naval officials.

NO MOVIE REELS
Will Be Distributed From Oct. 13 to Nov. 9.

New York, Oct. 12.—As an aid to the fight against the spread of influenza throughout the country the manufacturers and distributing agencies comprising the National Association of the Motion Picture Industry decided not to release new moving picture reels to exhibitors from Oct. 13 to Nov. 9, except that contracts for serial productions and animated news reels will not be broken.

ALLOWANCES AND ALLOTMENTS.
The Difference Is Described By the Committee of Public Safety.

Under the war risk insurance act, the government makes generous provision for needy and dependent families of soldiers and sailors during the war. Such provision is called an allowance. It is limited to wife, children, grandchildren, parents, brothers and sisters. It is further and most importantly limited to those grandchildren, parents, brothers and sisters who are dependent on the men in service.

There are various other limitations for which reference should be made to the text of the law. The distinction from allotments must be kept clearly in mind. Allotments are taken out of a man's pay for the benefit of a wife or relative; they do not affect the total amount paid by the government, but only its distribution. If an allotment is improperly paid, its adjustment is a matter concerning the selective and his family. Allowances, on the other hand, increase the sum payable by the government, and if improperly paid, their adjustment concerns every taxpayer and every citizen of the United States.

An allowance is a gratuity. No one except a wife or child should accept it who does not absolutely need it. The illegal receipt of an allowance is a fraud on the government and an acceptance of charity from the community.

Procedure for local councils in reporting alleged unwarranted recipients of allowances and allotments:

1. Always send report directly to the Vermont committee of public safety.

2. Typewrite report whenever possible.

3. Always give the following information in full:

a. Name and address of recipient.

b. Name, rank and organization of soldier or sailor.

c. Name, address and reputation in the community or informant.

d. The nature of the alleged violation of the war risk insurance law and the alleged facts of the case.

e. The name and postoffice address of your local committee.

4. Take every precaution to prevent any intimation from getting abroad that the case is being thus reported in order that no possible injustice may be done through a false report.

5. Never make an investigation on your own initiative. The bureau of war risk insurance has its trusted special agents in each community, who will perform this delicate task. We must not make our fighters feel that they cannot make allotments to their dependents without subjecting them to the ignominy of suspicion and investigation.

6. Be sure that every trusted member of your organization who is in a position to receive information from these cases, is instructed to report to you, and is informed of the precautions to be taken.

WAR AND MEDICINES

What Many of the Sick and Ailing Are Learning Nowadays.

So many doctors have gone to war, the services of comparatively few are available at home.

Good proprietary medicines are more widely used than ever, and more and more people are finding out how great their merit is.

At this time, when there is greater need of economy than ever before, Hood's Sarsaparilla, a thorough blood purifier, Peptiron, a real peptin-nutrient tonic, and Hood's Pills, a potent yet mild cathartic, are especially good and liked by all who use them.

These medicines are remarkably efficient, whether taken in conjunction or separately.—Adv.

ADDITIONAL LOANING POWER
Has Been Granted to National Banks of the United States.

Washington, D. C., Oct. 12.—Regulations enlarging the powers of national banks to make loans secured by Liberty bonds or certificates of indebtedness were issued by Comptroller of the Currency Williams, putting into effect the recent legislation exempting loans secured by government war securities from former limitations.

The effect of these regulations and the legislation, Mr. Williams explained in a letter to national banks, is to permit a national bank to lend to any single borrower until July 1, 1919, on the following conditions:

An amount not in excess of 10 per cent of the bank's unimpaired capital and surplus, whether or not secured in whole or in part by Liberty bonds or certificates of indebtedness, in accordance with regulations already existing.

An additional amount, not in excess of 10 per cent of the bank's unimpaired capital and surplus, secured by at least a like face amount of Liberty bonds or certificates of indebtedness.

A further additional amount, not limited, in excess of the 20 per cent of the bank's unimpaired capital and surplus, which must be secured directly by at least \$105 face amount of Liberty bonds or certificates of indebtedness for each \$100 of such loans.

SENT TO JAIL; RELEASED.
For Refusal to Answer Questions About Newberry Campaign.

New York, Oct. 12.—Alban A. Templeton, Frank W. Blair and Thomas P. Phillips, chairman, treasurer, and publicity director, respectively, of the Newberry Republican senatorial campaign committee in Michigan, were committed to jail here yesterday by Federal Judge Cushman for refusing to answer questions regarding campaign contributions before a federal grand jury.

Templeton, Blair and Phillips were arraigned for contempt of court and ordered confined in the Tombs prison until they comply with Judge Cushman's order. This action has halted the federal inquiry here into the expenditures made on behalf of Lieutenant Commander Truman H. Newberry, U. S. N., the Republican nominee for the United States Senate from Michigan.

Martin Littleton, counsel for the three men, made application for writs of habeas corpus to Judge Clayton, who granted them and permitted the release of the men on their own recognizance.

WHOLE TOWN SOLD.
Shaftsbury in England Dates Back to Saxons and Danes.

London, Oct. 12.—A whole town of 2,500 inhabitants, with a recorded history dating back to the time of the Saxons and Danes, Shaftsbury, in Dorsetshire, has been sold. The greater part of the municipality's acreage and buildings, part of the estate of Lord Staibridge, has been purchased by James White, a nationally known sportsman, for \$240,000 pounds.

In the terms of sale, Lord Staibridge announced, was a provision that the town be offered to the mayor and corporation at a reasonable price, and if they are unable to purchase it, to the tenants. If neither option is taken each individual tenant is to be given opportunity to buy his home.

Another section of the Staibridge estate, the market town bearing the family name, also has been offered for sale.

New York, Oct. 11.—Total fourth Liberty loan subscriptions in the second federal reserve district were close to the half-billion-dollar mark at 10 a. m. today. A gain of \$45,892,650, the best overnight showing since the early days of the campaign, brought the total up to \$491,017,400.

The increase was less than one-third of the daily average which must be made if the district is to go over the top with its quota of \$1,800,000,000. New subscriptions included \$5,000,000 by Kuhn, Loeb & company.

LAST "GASLESS" SUNDAY.
After Oct. 13 It Is Probable the Order Will Be Rescinded.

Washington, D. C., Oct. 12.—The gasless Sunday order will not be modified in time to permit use of motor cars on Oct. 13, but fuel administration officials are hopeful that day will be the last. During the last six months although production increased 27 per cent, consumption also increased and the stocks on hand were improved only 4 per cent.

IT is vitally important that the skin be cleansed of the waste matter and poisons which active exercise brings to it. Merely soaping over the surface is not enough. A thorough cleansing of the pores is necessary.

cleanses in this thorough, hygienic way because its rich lather contains Borax. The Borax gets down into the pores—digs them out so that they can absorb the water so necessary to a healthy skin. The defendants, one woman and six men, are alleged to have published and circulated a bolshevik circular. The defendants claim the object of the circular was to record the protests of the bolsheviks here against the United States "interfering in the internal affairs of Russia."

SAVE YOURSELF FROM INFLUENZA

If you are "run down" or out of condition, if sluggish bowels have allowed poisonous impurities to accumulate in your system you are certain to suffer severely with the grip. Dr. True's Elixir, the famous household remedy of 67 years' reputation, will ward off the grip entirely or make an attack light and easily thrown off. Why? Because Dr. True's Elixir is a vegetable tonic that puts the system in good condition, prevents and relieves constipation, stimulates the appetite and strengthens the digestive powers. It can do no harm because it contains no mineral drugs. All purely vegetable. A tonic—not a stimulant. No reaction. Ask your druggist for it, or write Dr. J. F. True & Co., Auburn, Me.—Adv.
